About Us

All India Institute of Medical Sciences (AIIMS), Nagpur

Introduction

The **All India Institute of Medical Sciences (AIIMS), Nagpur** is an Institute of National Importance established by the Government of India under the **Pradhan Mantri Swasthya Suraksha Yojana (PMSSY)** with the objective of correcting regional imbalances in the availability of affordable tertiary healthcare and strengthening high-quality medical education and research across the country.

Located in the **MIHAN (Multi-modal International Hub Airport at Nagpur) area**, AIIMS Nagpur serves as a major **tertiary healthcare, academic, and research hub for Central India**, particularly for the Vidarbha region of Maharashtra and neighbouring states.

The institute began its academic and clinical journey in **2018 from the Government Medical College campus in Nagpur**, subsequently shifting to its permanent campus at **MIHAN in September 2019**, where outpatient services were expanded. **Inpatient services commenced in 2020 during the COVID-19 pandemic**, marking a crucial phase in the institute's rapid growth. The institute was **dedicated to the nation on 11 December 2022 by the Hon'ble Prime Minister of India**, marking an important milestone in its institutional development.

Today, AIIMS Nagpur is steadily evolving into a **comprehensive centre of excellence integrating patient care, medical education, research, innovation, and community health outreach**.

Healthcare Services

AIIMS Nagpur provides comprehensive tertiary healthcare services supported by multidisciplinary teams of specialists, advanced diagnostics, and modern hospital infrastructure.

The institute currently has:

- **940 functional hospital beds**
- **110 intensive care beds** across specialized ICUs including MICU, SICU, NICU, PICU, CTVS ICU, Kidney Transplant Unit and Bone Marrow Transplant Unit
- **19 functional modular operation theatres**

The hospital serves a large patient population with:

- **3,500–4,000 outpatient visits daily**
- **100–120 emergency patients per day**
- **100–120 admissions daily**
- **40–45 major surgeries performed every day**

The hospital consistently maintains **bed occupancy rates close to 99%**, reflecting the trust placed in the institution by patients across the region. Since inception, the institute has treated **over 25 lakh outpatients and more than 1 lakh admitted patients**, demonstrating its growing role as a major referral centre in Central India.

Specialized Departments and Clinical Expertise

AIIMS Nagpur currently operates **47 functional departments**, providing comprehensive services across broad specialties, super-specialties, and diagnostic sciences.

These include:

Clinical Broad Specialties

- **100–120 admissions daily**
- **40–45 major surgeries performed every day**

The hospital consistently maintains **bed occupancy rates close to 99%**, reflecting the trust placed in the institution by patients across the region. Activities

- Cardiology
- Nephrology
- Neurology
- Endocrinology
- Rheumatology
- Pulmonary Medicine
- Medical and Surgical Gastroenterology
- Neurosurgery
- Urology
- Cardiothoracic Surgery
- Surgical Oncology
- Medical Oncology

Pre-clinical and Diagnostic Departments

- Anatomy
- Physiology
- Biochemistry
- Microbiology
- Pathology
- Pharmacology
- Community Medicine
- Forensic Medicine
- Hospital Administration and allied disciplines

These departments collectively provide **comprehensive multidisciplinary care supported by modern diagnostic and therapeutic technologies**.

Transplantation and Advanced Clinical Care

AIIMS Nagpur has developed robust transplant services and advanced surgical capabilities within a relatively short period.

Key milestones include:

- **54 kidney transplants**
- **13 bone marrow transplants**
- **29 corneal transplants**

The institute has also successfully facilitated **donation after circulatory death (DCD)** and expanded deceased donor transplantation programs.

In recognition of its contributions, AIIMS Nagpur received the **National Award from NOTTO (MoHFW, Government of India) as the "Best Emerging Government Institution in Organ Donation and Transplantation."**

The institute also performs complex and advanced procedures such as:

- **Cytoreductive Surgery with Hyperthermic Intraperitoneal Chemotherapy (CRS-HIPEC)** for rare peritoneal malignancies
- **Robotic-assisted orthopedic surgeries**
- Advanced interventional cardiology and neurosurgical procedures

These services are supported by state-of-the-art critical care and multidisciplinary expertise.

Medical Education

Medical education remains a central mission of AIIMS Nagpur.

The institute offers a wide range of academic programs including:

Undergraduate Programs

- MBBS – **125 seats annually**

Postgraduate Programs

- MD/MS programs across multiple specialties

Super-Specialty Programs

- DM and MCh courses in various disciplines

Nursing and Allied Health Sciences

- B.Sc Nursing
- M.Sc Nursing
- B.Sc Allied & Healthcare Sciences
- M.Sc Allied Health Sciences

Research Programs

- PhD programs in multiple biomedical disciplines
- Post-Doctoral Certificate Courses (PDCC)

The institute held its **first convocation ceremony in March 2025**, marking the graduation of its first batch of students.

Research and Innovation

AIIMS Nagpur actively promotes biomedical research and innovation aimed at improving healthcare delivery.

Key research achievements include:

- **741 research projects undertaken or ongoing**
- **More than 780 scientific publications**
- **50 extramural research projects funded by national agencies**
- **Research grants exceeding ₹27.5 crore**
- **64 sponsored clinical trials**

Faculty and students collaborate with premier institutions such as **IIT Bombay** to develop **interdisciplinary research, medical technologies, and innovation-driven healthcare solutions**.

Advanced Diagnostics and Infrastructure

The institute continues to expand its diagnostic and technological capabilities with several advanced facilities including:

- **Nucleic Acid Testing (NAT) Laboratory** – first government sector NAT lab in Central India
- **Trace Element Analysis Laboratory using ICP-MS**
- **Level-1 Polysomnography Sleep Laboratory**
- **Digital Subtraction Angiography (DSA) facility**
- **Robotic surgical systems**
- **Bio-Safety Level-3 Laboratory (under development)**

These facilities strengthen the institute’s capacity for **precision diagnostics, advanced therapeutics, and translational research**.

Community Outreach and Public Health

AIIMS Nagpur plays a significant role in improving healthcare access in underserved regions through community outreach and public health initiatives.

Key programs include:

- **Tribal health initiatives in Gadchiroli district**
- **Sickle cell disease screening and hemoglobinopathy programs**
- Telemedicine consultations and rural health outreach camps
- Public health awareness programs and national disease control initiatives

The institute also collaborates with organizations such as **SEARCH Foundation and UNICEF** to strengthen preventive healthcare and community-based research.

Partnerships and Institutional Collaborations

AIIMS Nagpur has established collaborations with national and international institutions to strengthen research, training, and healthcare innovation.

These include partnerships with:

- **IIT Bombay** for interdisciplinary medical research and innovation
- **UNICEF** for pediatric health initiatives
- **National Centre for Disease Control (NCDC)** for BSL-3 laboratory development
- Corporate partners supporting advanced infrastructure through CSR initiatives

Affordable and Accessible Healthcare

AIIMS Nagpur is committed to ensuring that **high-quality healthcare remains affordable and accessible to all sections of society**.

The institute provides:

- Diagnostic tests at **significantly subsidized rates**
- Access to **generic medicines through Jan Aushadhi Kendra**
- Discounted medicines through **AMRIT Pharmacy**

These initiatives help reduce the financial burden of healthcare for patients and families.

Vision for the Future

AIIMS Nagpur continues to expand its infrastructure and services with several upcoming initiatives, including:

- **Centres of Excellence in Diabetes and Clinical Trials**
- **Heart and Liver Transplant Programs**
- **SPECT-CT advanced imaging facility**
- Expansion of research laboratories and clinical services
- Additional campus development and infrastructure expansion

Through these initiatives, AIIMS Nagpur aims to strengthen its role as a **leading centre for healthcare, medical education, research, and innovation in India**.
