DEAN'S MESSAGE

Dean's Message

Leading with Excellence

Government Medical College, Gondia is established in 2015 under supervision and control of Directorate of Medical Education and Research (DMER) Mumbai. In short span of time since inception, institute has been able to develop its teaching, training, research, and health service platform quiet well. Faculties here are well versed with newer teaching methods that corresponds with 'Competency Based Medical Education for Indian Medical Graduates 2019 and 2023 laid down by National Medical Commission.

Institute provides platform for holistic development of students. Apart from routine lectures and practical, field-based clinics helps student develop their social consciousness. Presently, this institute provides adequate teaching modalities for teaching-learning activities. Recently, proposal for developing new college and hospital building campus spread over 25-acre area is sanctioned and will get materialized soon.

The institute provides conducive environment that facilitates undergraduate students to develop and flourish research aptitude. Funded research projects like Short Term Studentship (STS)-ICMR, MUHS-Short Term Research Grant (STRG) and student-led research are promoted here. The institute strictly abide to anti-ragging policy as per Maharashtra University of Health Sciences (MUHS) Norms.

Working together as a team of medics, paramedics, and supportive staff, I can foresee a radiant prosperous future in coming years.

Dean, GMC Gondia
