

Hostel @ CARE

The Hostel at CARE has Air-conditioned and Non-AC single and shared room options and is equipped with basic furnishing and provided uninterrupted water and power supply. Gymnasium, sport amenities, laundromat and Wi-Fi service are the other facilities available for the students. Living on campus always provides the students an opportunity for transition and a connection with a diverse population and thereby helping in improving interpersonal skills.

Students' security is our top priority at CARE. With all the entry and exit points of the hostel premises being guarded by access control turnstiles, the security of students has been ensured completely thereby enabling the families of the students to be in peace without any worry. Safety and security have always been ensured in spirit by wardens, supervisors, maintenance staff and security guards.

Clean, spacious and well-ventilated dining halls in the hostels serve hygienic, wholesome and nutritious food. A balanced menu is prepared from time to time with the consultation of student representatives and administrators. Review meetings are conducted periodically to address issues and also to update about any latest changes in services. Every effort goes into providing a safe, secure and comfortable living for all the students in the hostels. The aim is to make it a home away from home.
