

Hostels

The Apollo Institute of Medical Sciences and Research provides its students with top-notch living facilities. The Apollo Institute of Medical Sciences and Research prides itself on providing comfortable and cozy accommodation to every student that walks through its doors. Our hostels are brimming with life, and our students are sure to feel safe, secure, and, most importantly, feel at home. Our college has separate facilities for girls and boys.

The girl's hostel consists of 70 rooms, and each room has triple occupancy. The rooms are well equipped for students with all facilities for a wonderfully comfortable stay for their students.

They have a study table, cupboards, cots, and attached bathroom facilities in each room. There is a round-the-clock security service for the girl's hostel. The hostel is managed by one warden and two assistant wardens. The students have access to various Apollo Institute of Medical Sciences and Research cafeterias along with students' mess and the Institutes cafeteria.

The Girls Hostel is headed by Warden Dr. Sumana Sen

The boys' hostel consists of 55 rooms, and each room has triple occupancy. The rooms are well equipped for students with all facilities for a comfortable stay for their students. They have a study table, cupboards, cots, and attached bathroom facilities in each room. There is a round-the-clock security service for the boy's hostel. Life at Campus

We at The Apollo Institute of Medical Sciences and Research emphatically believe in the nourishing vibrant personality of our students, and for that, we render overall development pedagogy and auxiliary events to foster it.

Mess

AIMSR believes that a cafeteria is not just a place where students and the faculty go to eat, it is a place where the soul is nourished through positive thoughts and fun talks with the fellow pupils. It becomes an open arena where fresh-spirited arguments happen giving rise to the identification of problems and their benevolent solutions. With these in mind, the college has a well-maintained cafeteria which provides various dining options for its students and faculty. The cafeteria also provides hygienic, wholesome meals over Breakfast, Lunch & Dinner at affordable prices. It provides snacks and beverages throughout the day.

Food Court

The Apollo Institute of Medical Sciences and Research nurtures its students by providing holistic education. The college inspires its students to take part in value-added activities collectively. Sports is an integral part of the curriculum here at The Apollo Institute of Medical Sciences and Research. The students have been exposed to varieties of fun-loving and heart-healthy games such as Football, Basketball, Volleyball, and badminton. The Apollo Institute of Medical Sciences and Research also provides brain-stimulating indoor games like Chess, Carom, etc. They also conduct various inter-college competitions for their students. Students fall in love with the recreational facilities the college provides.
