

Hostels

ELMC believes in imparting personalized attention to each student. Small groups are formed for practicals, demonstrations and clinical postings. ELMC has installed Biometric Attendance system to insure regular attendance in all lectures. Students have to just place their finger on the Biometric Machine to register their attendance in the class, if one fails to do the same SMS will be send to that particular student's parent/guardian intimating the absence of their ward in the class of that particular subject. We have harnessed technology to ensure seriousness and punctuality among students, and this has helped us maintain high academic standards.
