Anaesthesiology & Critical Care

Department aims at providing the best of care to patients and also training post graduates. The Department of Anaesthesiology at career institute of medical sciences aids patients with perioperative care, pain management for both minimally invasive and complex open surgeries. Our department works as a team with various other surgical specialties offering general anesthesia, regional anesthesia, acute and chronic pain management, we also handle critically ill patients requiring surgery. Work is equally balanced with academics. Regular classes and teaching programmes keep our post graduates updated with the latest guidelines and working protocol. The teachers and faculties ensure smooth working of the department and also encourage the post graduates to participate in various academic activities.

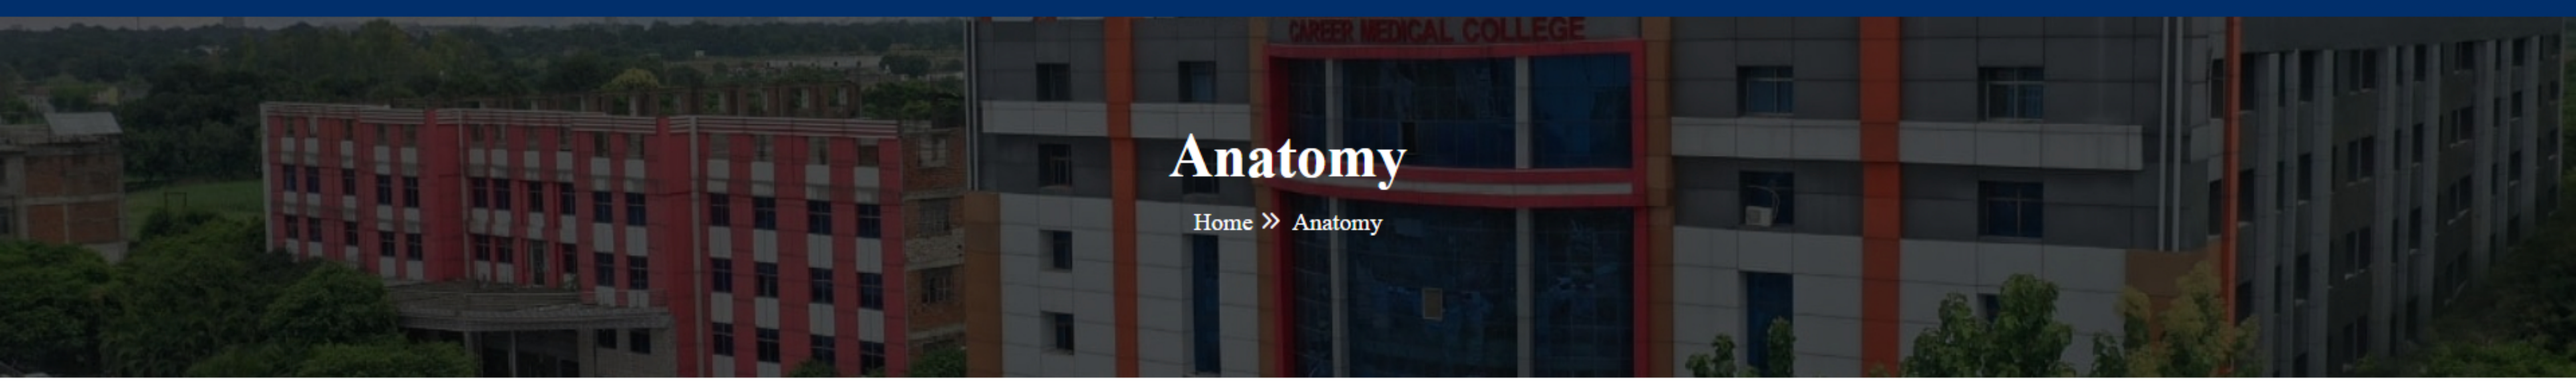

The department provides anaesthetic services every day to a variety of surgeries including general surgery, Orthopaedics, obstetrics and gynecology, otorhinolaryngology, ophthalmology, maxillofacial surgery, pediatric, plastic, neuro and cardiac surgery. State of the art technology and science is being used including multimodularmonitors, newer anesthetics, ultrasound-guided regional anesthesia and a large variety of difficult airway equipment among many others providing excellent training opportunities.
Academic activities like clinical meets on latest updates are regularly hosted and AHA credited ACLS-BLS course is being organized atleast 4 times yearly to keep the postgraduates and faculty up to the par with global standards.

Faculty of Anaesthesiology.

Anatomy

The Department of Anatomy plays a foundational role in shaping future healthcare professionals. It provides students with a deep understanding of the structure and organization of the human body —essential for all medical and paramedical fields.

To enhance students' skills, the department emphasizes:

- **Hands-on Learning:** Dissection labs and 3D models help students visualize and understand complex anatomical relationships.
- **Integrated Teaching:** Collaborating with clinical departments bridges the gap between theory and practical application, making learning more relevant and engaging.
- **Research & Innovation:** Encouraging student-led research projects and cadaveric studies

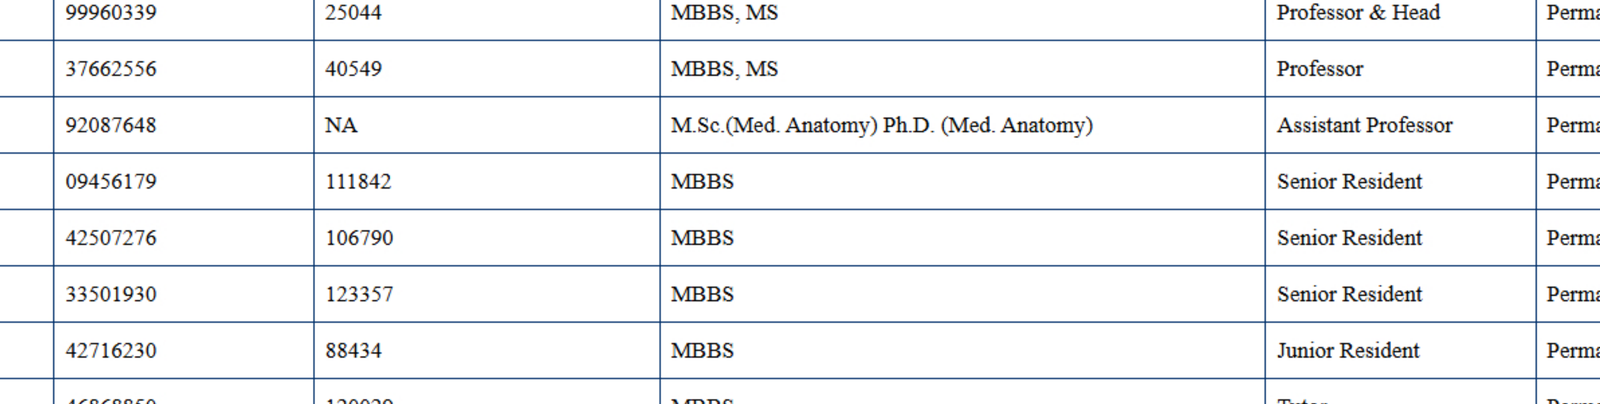

The faculty and professors of the Anatomy Department are highly qualified, experienced, and deeply committed to academic excellence. With a strong foundation in both teaching and research, they play a crucial role in mentoring and guiding students at every step of their learning journey.

- **Expertise & Experience:** Our professors bring years of clinical and academic experience, ensuring that students receive accurate, updated, and clinically relevant anatomical knowledge.
- **Mentorship & Guidance:** Faculty members go beyond textbooks—offering personalised mentorship, encouraging student participation in academic events, and guiding research projects and presentations.
- **Innovative Teaching Methods:** Professors incorporate modern tools such as virtual dissection software, audiovisual aids, and interactive sessions to make anatomy engaging and easy to understand.
- **Approachable & Supportive:** The department fosters a student-friendly environment where faculty members are always approachable —ready to clear doubts, support academic growth, and nurture curiosity.

Through their dedication and innovative approach, the faculty of the Anatomy Department play a vital role in transforming students into confident, skilled, and compassionate healthcare professionals.

Biochemistry

The Department of Biochemistry has been providing its services from the establishment of the institute.
The primary goal of teaching biochemistry to students is to help them understand the scientific basis of life processes at the molecular level and guide them in applying this knowledge to solve clinical problems. Biochemistry deals with the chemical processes that occur in both health & disease.
The department aims to enhance student's subject knowledge and also supports the institute's clinical departments in patients care by providing diagnostic facilities.
The Biochemistry department aims to develop into a centre of excellence in education, research and patient care.

Community Medicine

The subject of Community Medicine is concerned with the promotion of health, prevention, control & management of diseases or disabilities and other health problems in the community. It is the branch of medicine that deals with community rather than individual disease or infirmity, Community Medicine is taught from 1st Semester to 7th Semester (in a 9 semester MBBS curriculum).

The Department of Community Medicine at CIMS&H is well equipped to provide teaching and training of the subject to both under graduates (including internship training) and post graduate students.

Teaching facilities For pedagogy Lecture Halls and LCD facilities along with AC environment is available.

Demonstration Room For teaching purposes a well equipped Demonstration Room with transparency, projectors and black board has been provided with adequate seating arrangements for the students.

Research lab facilities have been provided with Food Adulteration detection equipments, Milk Testing equipments, Water Testing equipments. There are also Haematological and Entomological lab equipments for routine survey tests.

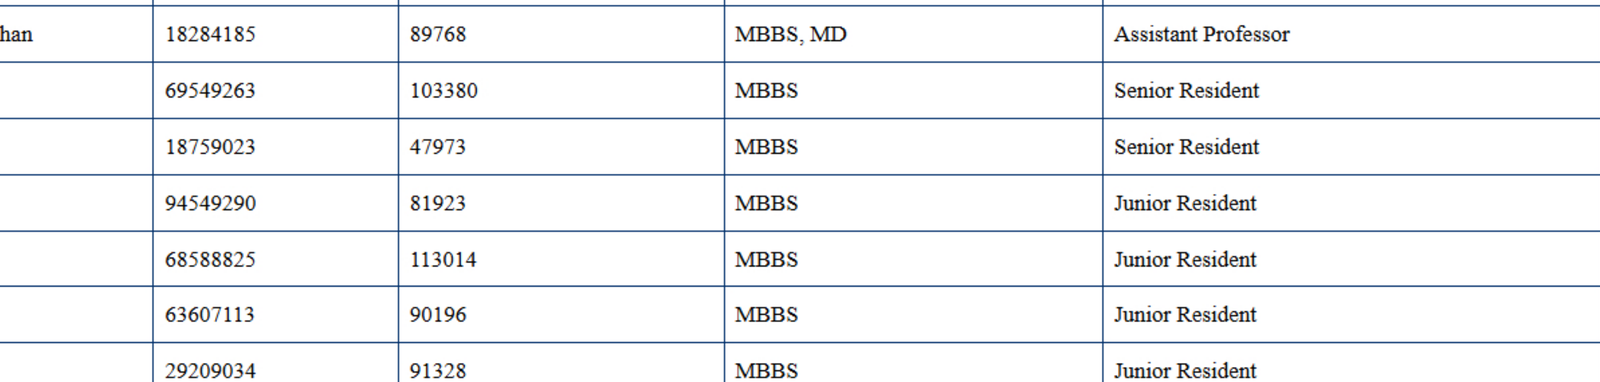

Library cum seminar room is well equipped with latest editions of books of Community Medicine and sufficient number of international and national journals as well as WHO publications.

The staff has a number of publications to their credit in international and national journals.

Museum is well equipped with all important model displays on subjects like Environment, Water and Sanitation, Family Welfare Planning, Waste management, Nutrition and, Vaccination and also on special subjects like No Tobacco Day. **Specialized Centres of Training like Rural Health Training Centre (RHTC) and Urban Health Training Centre (UHTC)** are functioning to train the students with special problems in rural health as well as the health of urban populations. In addition regular medical camps are being held in remote areas around the college. The Dept. of Community Medicine also observes special Health days like world health day (7th April), World T B day (24th March) World AIDS day (1st Dec) etc. Department has separate sections for A) Epidemiological Unit B) Medico social work. C) Biostatistics. D) IIealth Education. E) Family case studies.

Dermatology Venereology & Leprosy

The diseases involving the skin and the mucous membrane come under the Department of Dermatology, Venereology and Leprology. The STDs and leprosy are the two other major disorders. Various dermatological diseases manifest themselves in the form of an emergency. Diseases like drug reactions, Steven Johnson's syndrome, Toxic Epidermal Necrolysis (TEN) etc. require round the clock emergency care which is provided by the Dept. of Dermatology, Venereology and Leprology. Certain chronic dermatological diseases have a profound psychological and social impact. We provide the latest cosmetic service to the patients with the help of three different types of lasers, derma abrader and an armory of chemical peels. Other services like PUVA therapy, wood's lamp examination, minor OT procedures (comedone extraction, milia enucleation, electrocautery) are also available at the department. Department is equipped with one seminar room, cum library, mini lab, faculty rooms, OPD chambers, two general wards (one for male, other for female) and one minor OT for carrying out day to day procedures and one laser room equipped with an AC.

The Department runs the following speciality clinics:

- Autoimmune Diseases Clinic
- Psoriasis Clinic
- Leprosy Clinic
- Vitiligo & Pigmentary Clinic
- STD Clinic + Contact Dermatitis
- Vesico- Bullous Disease Clinic

General Medicine

- Established as a core clinical department, the General Medicine department at Career Institute of Medical Sciences, Lucknow serves as a foundational pillar in the institution's commitment to high-quality medical education and patient care.
- The department delivers 24x7 emergency and inpatient services, with a dedicated OPD catering to a high patient load daily, a well equipped IPD, and a modern ICU setup to manage critically ill patients.
- The department boasts an advanced Intensive Coronary Care Unit (ICCU) equipped with a modern Cath Lab that supports a range of interventional cardiology procedures. Services include CT Coronary Angiography, Coronary Angiography, and Percutaneous Coronary Interventions (Angioplasty), enabling comprehensive cardiac care under one roof. In addition, the department is supported by a well-functioning Dialysis Unit that provides essential renal replacement therapy for patients with both acute and chronic kidney disease.

- It plays a pivotal role in undergraduate (MBBS) education and postgraduate training (MD in General Medicine), emphasizing integrated clinical learning, bedside teaching, and evidence-based practices.
- The department actively promotes research and academic excellence, contributing through research publications, case discussions, seminars, and clinical audits. Students and residents are encouraged to participate in community outreach programs and rural health initiatives.

General Surgery

Since the establishment of the department of General Surgery, the department is fully committed to give services to medical students, patients and public. Department has excellent infrastructure—with highly experienced and qualified faculty members who very often gain recent advances by attending various workshops and seminars in different parts of country.

Department has four O.P.D chambers 120 bedded indoor wards, surgical intensive care unit with well trained nursing staff providing and serving all medical essentials. We have operation theatres which are fully equipped with recent and latest equipments.

The Department runs the following speciality clinics:

- Paediatric Surgery
- Breast Surgery Clinic
- Minimal invasive Surgery
- Urology
- Diabetic Foot Clinic
- Minimal invasive Surgery

Microbiology

Department has well equipped separate labs for Bacteriology, Mycobacteriology, Serology, Immunology, Mycology, Parasitology, Virology, Media preparation, molecular NABL accredited ICMR approved RTPCR BSL2 lab according to NMC guidelines is established. Latest safety cabinets, automated machines are installed.

The central laboratory is situated in career hospital premises renders service around the clock in the diagnosis of infectious diseases.

Various sections of the department cater to the diagnosis of various infectious diseases. Besides routine conventional methods, rapid diagnostic tests which include molecular techniques for certain infections like Corona virus, hepatitis C viral load and genotypic characterization are also being used for diagnostic purposes.

The department also helps in the investigation and surveillance of various infectious outbreaks that occur (like dengue, Chikungunya) from time to time. Certain specialized tests like drug susceptibility testing and detection of ESBL producers, MBL producers, carbapenem producers, MRSA, VRE, HLAR is being performed in the department.

The department has taken a major initiative in Hospital Infection Control. Surveillance of different wards, critical care areas, operation theatres, kitchen, linen/laundry, CSSD, TSSU, etc. for hospital associated infections and outbreaks is being done on regular basis & measures for prevention, control and treatment of these infections undertaken. Besides, sterility testing & quality-check of blood bags, IV fluids, syringes, etc. & disinfectants supplied to the Institute is done as a matter of routine on regular basis.

The Department of Microbiology is having qualified, experienced, well trained and dedicated faculty consisting of Professors, Assistant Professors, Associate Professor and Junior Residents/Tutor from reputed institutes of the country. The department renders diagnostic services to Hospital and Research along with teaching facilities to MBBS, Post graduate degree in Microbiology, Nursing and Paramedical courses.

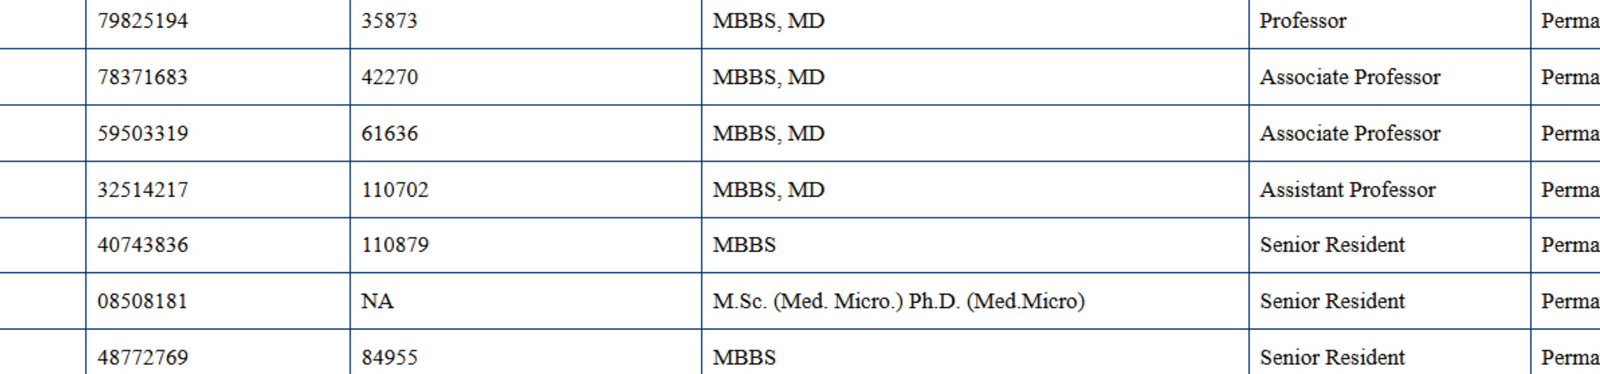

Well-equipped practical lab with binocular microscopes for each 150 undergraduate students

An exclusive museum full of formalin preserved specimens, models, colour photographs & colour charts of various pathogens & diseases. Well-equipped Demonstration Rooms.

Departmental library has a collection of U.G. and P.G. standard books of renowned authors and reputed publisher along with Indian and International journals. Well-equipped Research Lab for various research projects for P.G. students are also established.

Obstetrics Gynecology

Department of Obstetrics & Gynaecology

The Department of Obstetrics and Gynaecology is dedicated to delivering high-quality, compassionate and evidence-based health care for women across all stages of life. Our department combines excellent clinical services and strong academic training, nurturing the next generation of medical professionals.

Our Vision

To be a recognized centre of excellence in women's health, undergraduate and postgraduate medical education and research — ensuring safe, ethical and comprehensive care for every patient.

Clinical Services

We offer a wide range of specialised services through well-equipped units and dedicated teams:

- Antenatal & Perinatal Care
- High-Risk Pregnancy Management
- 24x7 Labour Room & Emergency Obstetric Care
- Elective & Emergency Gynaecologic Surgeries
- Laparoscopy & Minimally Invasive Surgery
- Family Planning Clinic
- Adolescent Health Clinic
- Gynaecologic Cancer Screening & Prevention Programmes

Our Mission

To provide safe, compassionate and evidence-based healthcare for women across all stages of life while fostering excellence in medical education, clinical skills and ethical practices for both undergraduate and postgraduate learners.

Values

- **Compassion:** Delivering care with empathy, respect and dignity.
- **Excellence:** Maintaining high standards in clinical practice, teaching and research.
- **Integrity:** Upholding ethical, transparent and patient-centred decision-making.
- **Teamwork:** Encouraging collaborative learning and multidisciplinary care.
- **Commitment:** Dedicated to improving women's health and training future specialists.

Faculty

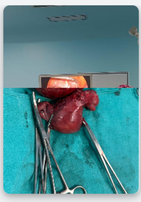

A dedicated team of experienced professors and clinicians committed to patient care, teaching and research.

Our team is dedicated to:

- High-quality patient care
- Evidence-based teaching
- Clinical research & skill development
- Mentoring MBBS & postgraduate students

Ophthalmology

Operation Facilities

1. State of the art sutureless cataract surgery by phacoemulsification with implantation of foldable intraocular lens.
2. Glaucoma surgeries including trabeculectomy.
3. Strabismus (squint) surgeries.
4. Oculoplastic surgeries including eyelid and lacrimal surgeries.
5. Paediatric Ophthalmic surgeries.
6. Management of retinal disorders (M3edical & Surgery)
7. Retinal interventions including lasers and advanced vitreoretinal surgeries.
8. Community outreach services

Out Patients Services

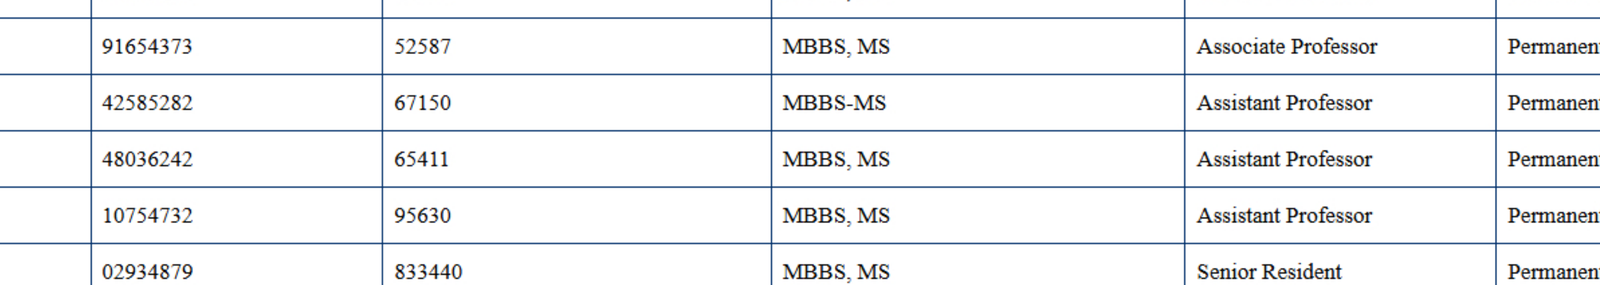

- Refraction
- Fundus Examination
- Glaucoma services
- Paediatric Ophthalmology and Strabnismus services
- Retinal examination and management

Specialty Clinics

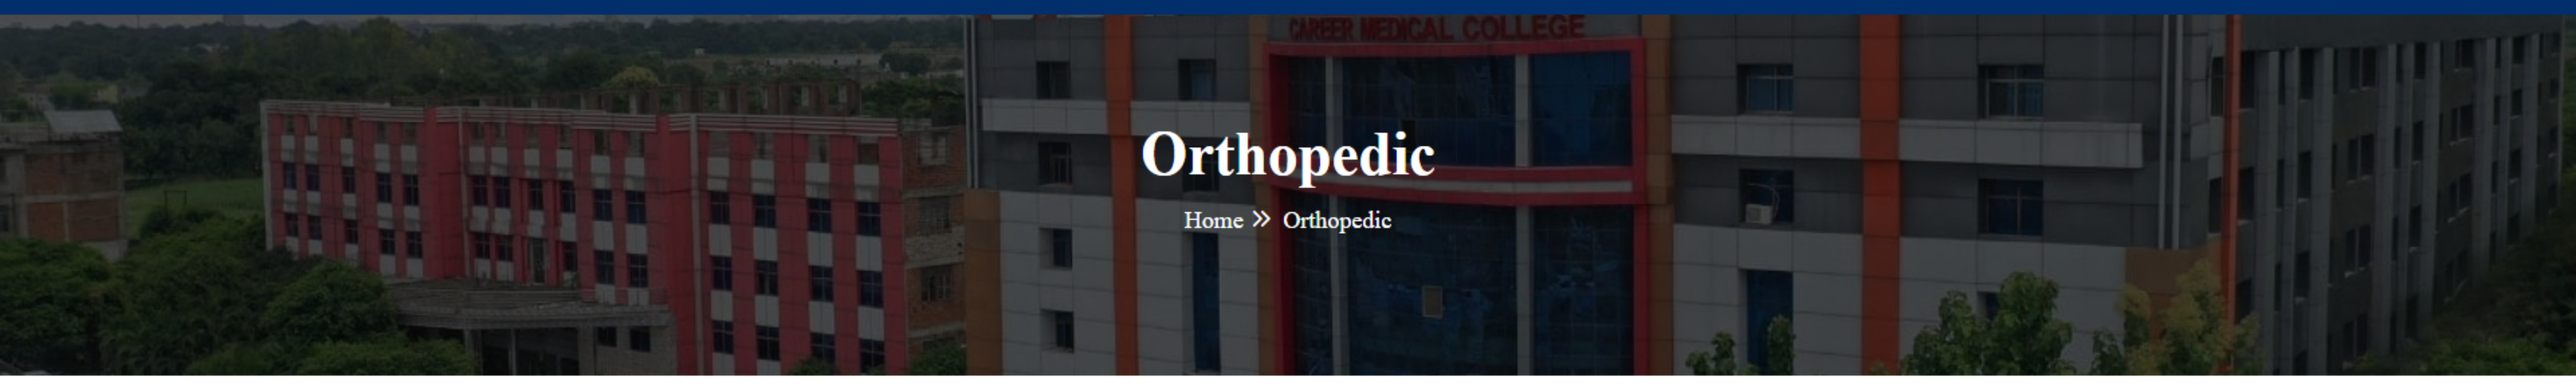

- Glucoma Clinic
- Oculoplasty clinic
- Strabismus (squint) clinic
- Paediatric Ophthalmology clinic
- Retina clinic
- Neuro-ophthalmology clinic

Orthopedic

The department of Orthopaedics deals with all diseases of bones, including trauma. We deal with a plethora of bone diseases ranging from congenital, metabolic & neoplastic disorders, degenerative and infective bone and joint diseases. Trauma, both fresh and neglected is an important and integral aspect dealt by us.

The department of Orthopaedics has one male & one female ward with thirty beds in each ward. There are two operating theatres with C-arm image intensifier in one theatre. Other specialized instruments are available as per the MCI requirement.

The activities like journal clubs, Clinical Case presentation, seminars and fracture clinics are regularly held.

The department has been organizing **"CADAVERIC PELVI – ACETABULAR FRACTURE FIXATION"** workshop for the last two years.

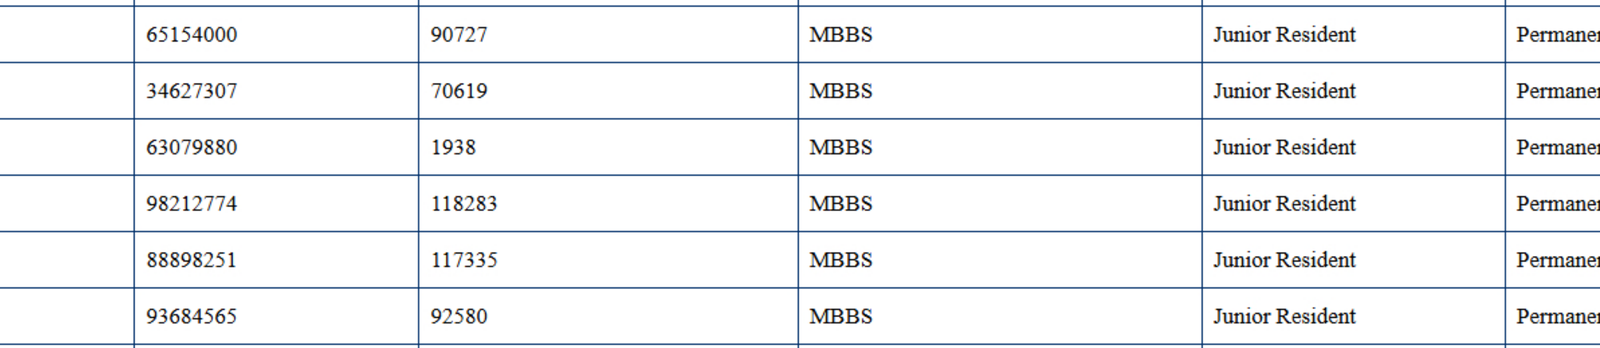

The Department runs the following speciality clinics:

- Knee Clinic
- Spine Clinic
- Hard Clinic
- CTEV Clinic
- Fracture Clinic
- Foot Clinic

Pathology

The Department of pathology has 10-member faculty assisted by technicians, clerical staff and service staff. The department provides the diagnostics services to our hospital. In addition, the department is involved in teaching pathology to the students of varied medical and paramedical disciplines.

The department of pathology in CIMSH has started its M.D Path in 2020, and shown exponential growth since then. The M.D pathology course is a good choice for aspiring post-graduate students and is structured based on the NMC requirement. The training is conducted by experienced and dedicated faculty. The Department has an air-conditioned research laboratory with Penta headed microscope and plasma TV for post- graduate teaching. We have a library with more than 90 books, along with Indian and foreign journals.

The Departmental Library facility containing all books for undergraduates with recent edition along with Computer is available. A well equipped Museum with 150 gross specimens from various body system with Information Chart and Models in student lab is being maintained.

Our post graduates are trained in the field of: Histopathology, cytology, hematology, blood banking, Immunohistochemistry, Immunofluorescence, Fine needle aspiration cytology and Autopsy techniques.

The students have ample opportunity to carry out research under the expert mentorship of senior faculty and present scientific papers and publish them in high impact journals. The department also undertakes regular research activities, including prospective observational studies, case series, and thesis work in collaboration with various clinical departments.

Emphasis is placed on fostering a research-oriented mindset among students through active participation in workshops, academic conferences, and institutionally approved research projects under the guidance of the ethics committee.

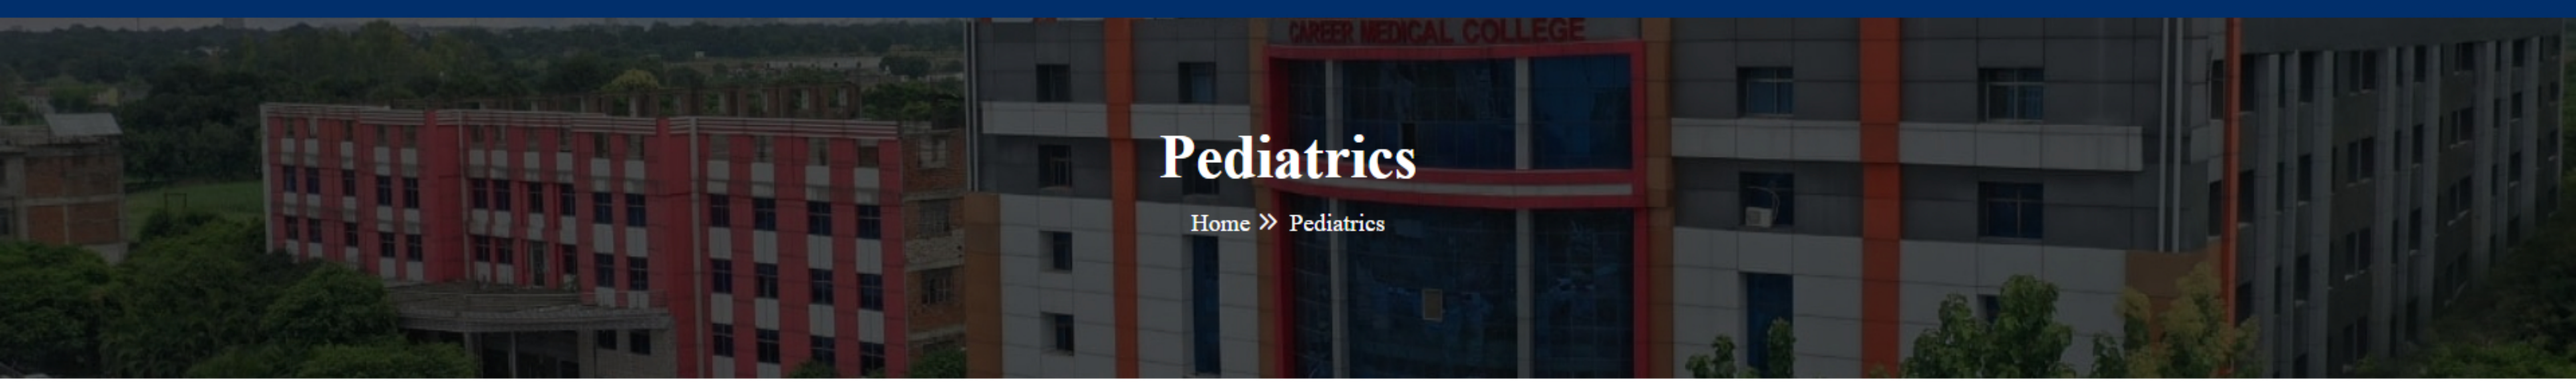

Faculty members have actively contributed to academic development by delivering lectures and slide presentations in oncopathology seminars, various state and national-level conferences and CMEs, thereby enriching both intra- and inter-institutional learning.

Pediatrics

The Department of Pediatrics is committed to providing comprehensive, compassionate, and evidence-based care to infants, children, and adolescents. With patient care as our top priority, we strive to deliver the highest standards of clinical excellence across all pediatric specialties.

Our state-of-the-art Pediatric Ward comprises 66 beds and is equipped to manage a wide spectrum of pediatric medical and surgical conditions. The department also houses a fully functional, Level 4 Neonatal Intensive Care Unit (NICU) and a Level 4 Pediatric Intensive Care Unit (PICU), each with a capacity of 10 beds. These units are staffed by highly skilled pediatric intensivists and neonatologists, supported by a multidisciplinary team trained in critical care.

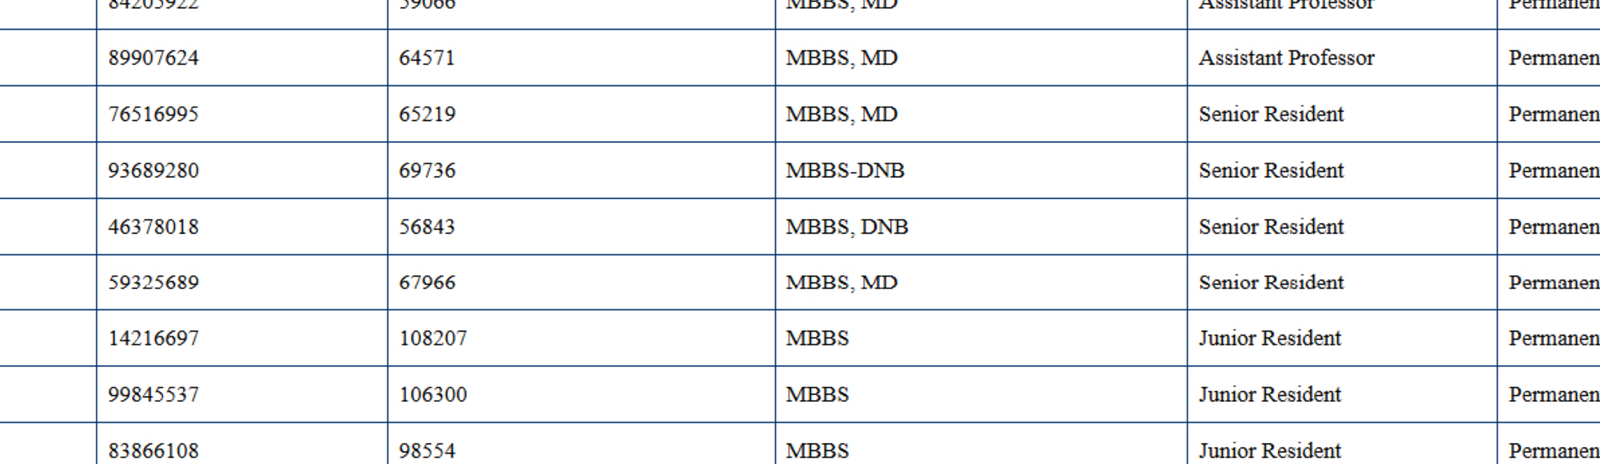

We provide round-the-clock emergency pediatric services, with full capabilities for both invasive and non-invasive ventilation, advanced life support, and intensive monitoring. The department is well-equipped to handle all forms of pediatric emergencies and critical illnesses, ensuring timely interventions and continuous, specialized care.

Through a blend of clinical expertise, cutting-edge technology, and a child-friendly environment, the Department of Pediatrics aims to ensure the well-being and recovery of every young patient entrusted to our care.

Pharmacology

The Department of pharmacology has set immense goals to provide Skill, Knowledge, Attitude based learning (AETCOM) to train Under Graduates and post graduates under CBME based curriculum. The department is accomplished to deal with:

- Integrative Learning of pharmacology for Under Graduate and Post graduate Medical students. (lectures/SDL)

  A) Case Studies: Teaching-learning, how to Apply pharmacological knowledge to clinical cases. Work through patient scenarios to make informed drug choices and management plans.

  B) Interdisciplinary Collaboration: teaching how pharmacologists, physicians, and other healthcare professionals collaborate to optimize patient care
- Demonstration of Clinical pharmacology, Pharmacy preparations and Experimental Pharmacology. Demonstrations of CAL (Computer Assisted Learning) in Experimental Pharmacology.
- UG and P.G. Seminar/PG Journal Clubs/ PG Thesis Writing / Microteaching/ guest lectures.
- Hands on trainings through mannequins. OSCE/ OSPE training, through skilled laboratory.
- Assessment and Evaluation:

  A. Quiz

  B. Regular assessments: Both External and Internal Examinations to test knowledge and understanding of pharmacological principles.

Achievements:

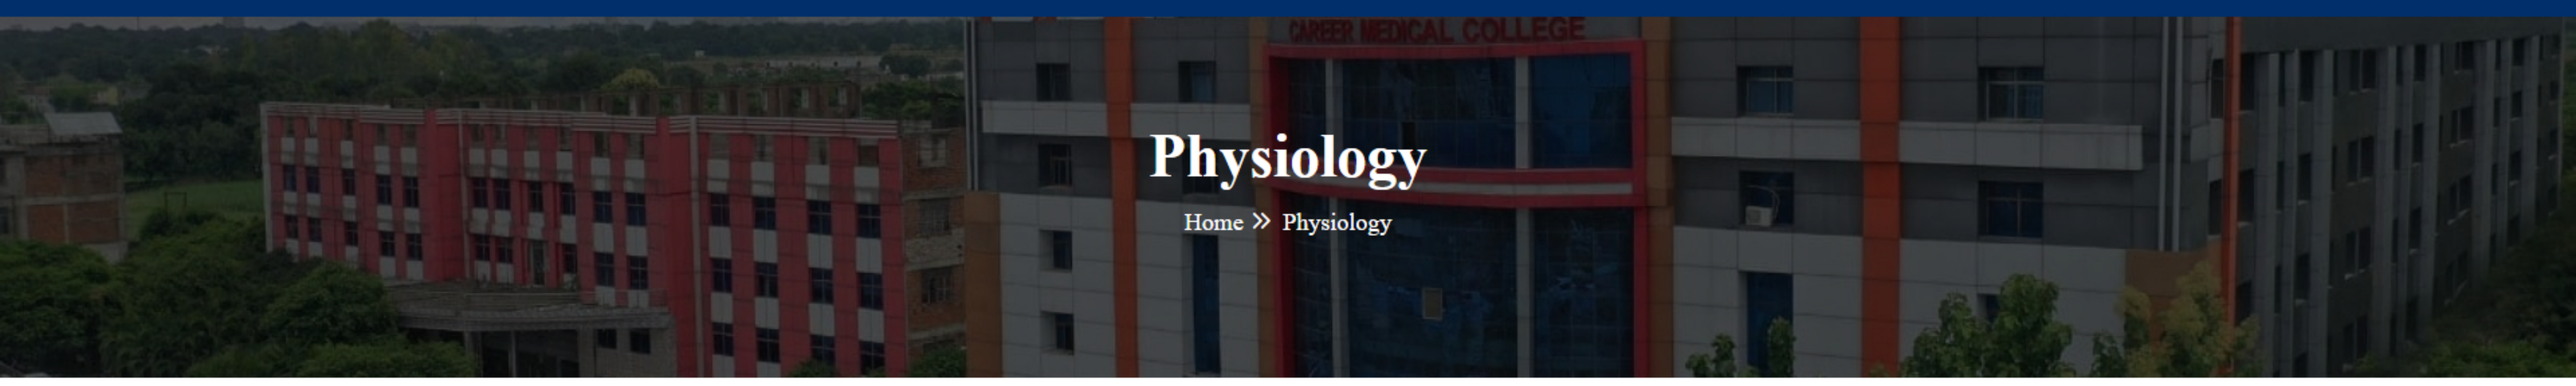

- Department got Permitted for establishment of Pharmacovigilance, ADR monitoring centre in career medical college by Indian pharmacopoeia commission (IPC), National coordination Centre (NCC)- Pharmacovigilance programme of india (PvPI) Ghaziabad. Permitted for data collection for Pharmacovigilance, Haemovigilance and Biovigilance.
- DR monitoring training associated with patient's safety and pharmacovigilance week programme.
- Department conducts Project works/activities time to time-
- Dosage forms of drugs by collecting disposed or expired drugs.
- Demonstrating role of drugs by different route of drug administration using innovatively designed mannequins.

Physiology

The Department of **Physiology** is well equipped with Human Physiology Laboratory, Haematology Laboratory, Amphibian Laboratory, Mammalian Laboratory and Research Laboratory.

Teaching facilities with well equipped **A.C. Lecture** Theatre along with Audio-Visual aids (OHP and LCD), available. Within the Department a Demonstration Room with capacity of 50 students with A.V. aids is also available.

Human Physiology Lab for 50 students at one time, is equipped with sphygmomanometers, spirometers, Lister's perimeter, tuning forks, hammers etc for CNS, CVS, Respiratory, Abdominal and Genera l examination.

Haematology Lab for Blood experiments is available for 50 students at one time and is equipped with Microscopes (Binocular & Monocular), Haematocytometers , Haemoglobinometers, Wintrobe's and Westegren's tubes, alongwith Antisera for blood group estimation, Centrifuge machine etc.

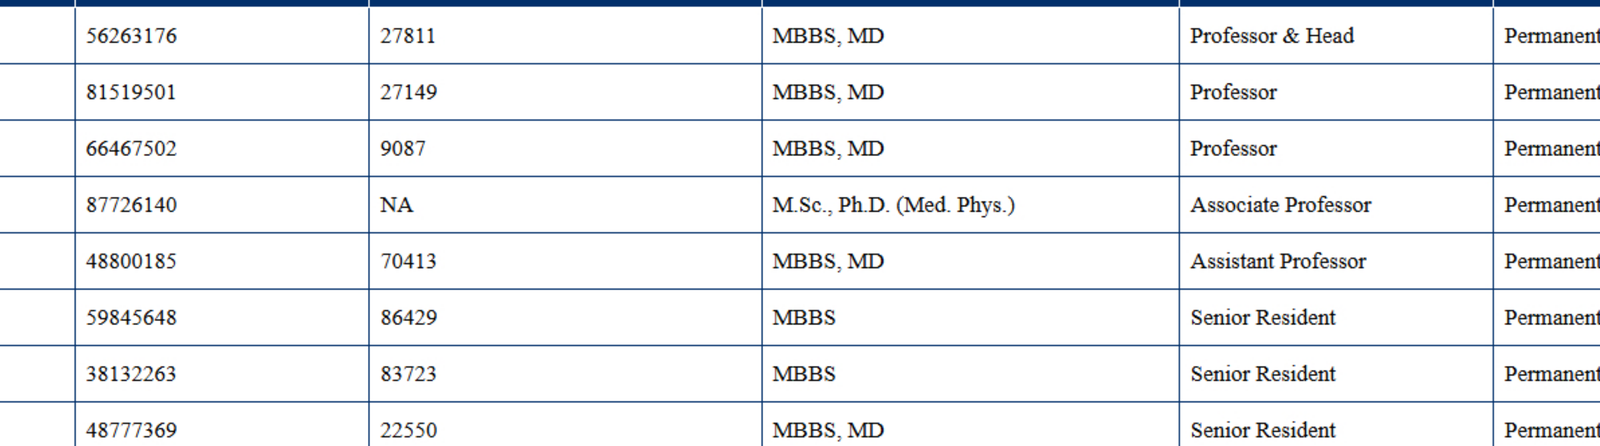

Amphibian Lab For frog experiments for 50 students at one time with kymographs, student's stimulators, short circuiting keys, tapping keys, Dubois Raymond coil, knives, hammers, starlings heart levers, muscle baths etc, available.

Research Lab Equipped with:

- Digital Polyrite for BERA, VEP, EMG, NCV as well as for HRV, Heart rate, Body temperature, Resp. movements and GSR,
- Digital ECG Machine
- Digital PFT Machine
- Bicycle ergometer
- Colorimeter
- Photometer, etc.

Psychiatry

The Department of Psychiatry is committed to delivering comprehensive mental health care, cutting-edge clinical services, and excellence in postgraduate medical education. Our department offers a wide range of diagnostic and therapeutic facilities to ensure holistic and evidence-based treatment for patients. These include:

1. Electroconvulsive Therapy (ECT): Administered under safe, standardized protocols for severe and treatment-resistant psychiatric conditions.

2. Electroencephalography (EEG): Used as an important diagnostic tool in the evaluation of neuropsychiatric disorders.

3. Biofeedback Therapy: An effective, non-invasive intervention for stress-related disorders and anxiety spectrum conditions.

4. Psychotherapy Services: Offered by trained professionals for a range of psychiatric disorders, including cognitive behavioural therapy, supportive psychotherapy, and family interventions.

In addition to clinical services, the department places strong emphasis on postgraduate training and academic enrichment. A structured academic schedule is followed meticulously to foster learning, critical thinking, and research orientation among postgraduate students. The academic activities include:

1. Weekly Seminars: Covering a wide range of clinical and theoretical topics in psychiatry and allied neurosciences.

2. Case Conferences: In-depth clinical discussions focused on diagnostic challenges, management dilemmas, and evidence-based interventions.

3. Journal Clubs: Encouraging regular appraisal of recent scientific literature to keep abreast of advancements in the field.

4. Grand Rounds: Case-based discussions involving faculty and residents, aimed at holistic understanding and collaborative learning.

5. Group Discussions: Facilitating interactive and peer-supported learning on contemporary psychiatric issues and clinical scenarios.

With a dedicated team of faculty and mental health professionals, the Department of Psychiatry continues to strive for clinical excellence, academic rigor, and compassionate patient care.

Publications from the department during the past 3 years:

Radio-Diagnosis

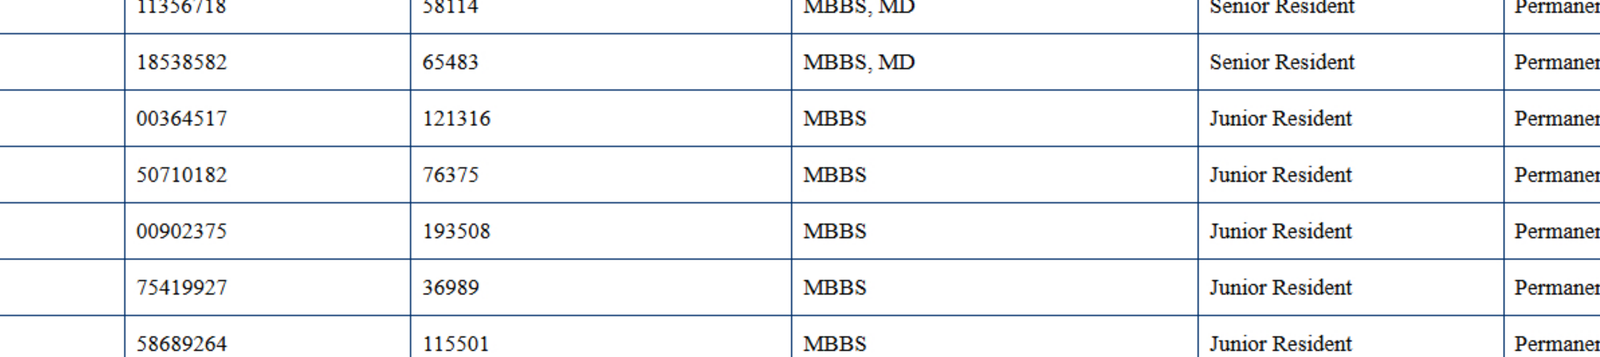

Radiology is a medical specialty that employs the use of imaging to both diagnose and treat disease visualized within the human body. Our Radiologists use an array of imaging technologies listed below to diagnose or treat diseases.

- Digital X-Ray
- Ultrasonography
- 2 D-Echo and Doppler Studies
- CT Scan (Computed Tomography)
- MRI Scan (Magnetic Resonance Imaging)
- Interventional Radiology
- Mammography

Respiratory Medicine

The Department of Chest Diseases and Tuberculosis as an allied department of medicine manages critical patients of Respiratory Diseases and Pulmonary Tuberculosis with well qualified specialist staff. Adequate facilities for investigations are available.

It has collaboration with state Tuberculosis control programme with RNTCP section attached to it for management of Tuberculosis cases along with a well equipped ward for indoor cases.

Adequate and well equipped teaching facilities are available with lecture theatre and demonstration room along with library facilities.
