Hostel

Hostel

We at Sri Chamundeshwari Medical College pledge to provide each student with a comfortable stay – " A Home Away from Home ". Within the campus, there are separate hostels for boys and girls with very tight security. The amenities offered make up for the lack of a "home environment" and help the residents achieve their goals. The rooms are spacious, well ventilated, tastefully decorated and feature excellent hygienic and communication amenities. There are TVs in the common areas.

The college makes sure that the hostellers have appropriate security arrangements. We provide the ultimate hostel experience, complete with an upscale lifestyle. The residential campus is conveniently located on the grounds of the institutional campus, where life at Sri Chamundeshwari College is vibrant from early morning to night. A place that is safe and secure for both boys and girls. Residential quarters are located in each hostel, and each hostel has a resident warden to look after the hostelers.
