Occupational Therapy

Gokuldas Tejpal (GT) Hospital, established in 1875 through the philanthropy of businessman Gokuldas Tejpal, is one of Mumbai's oldest medical institutions. The Occupational Therapy (OT) Department was established to support the hospital's mission of providing comprehensive and accessible healthcare services to the public.

The department evolved alongside the development of Occupational Therapy in India, a profession that was pioneered in Mumbai at KEM Hospital in 1950. As part of the Grant Government Medical College healthcare system, the GT Hospital Occupational Therapy Department developed expertise in the rehabilitation of patients with physical disabilities, neurological disorders, and post-surgical conditions. Over the years, the department has played a significant role in restoring functional independence and improving the quality of life of patients through comprehensive rehabilitative care.

Today, the department continues to serve as an important center for restorative healthcare, focusing on patient independence, functional adaptation, and community reintegration.

Ex-heads of the department:

- Shri. Bhaskare Sir (Occupational Therapist)
- Mrs. Nayna Hatwar (Occupational Therapist)

Courses offered by the department with annual intake:

N/A

Vision / mission statement:

To be a center of excellence in restorative healthcare, empowering individuals from all backgrounds to achieve their highest level of independence, dignity, and participation in daily life through innovative, evidence-based, and compassionate occupational therapy services.

Recent updates:

Procurement of equipment to enhance overall patient rehabilitation services and improve functional outcomes.

OPD details:

OPD Number: 31
Location: Beside Orthopaedic Department
Days: Monday to Saturday
Timings: 8:30 AM to 3:30 PM

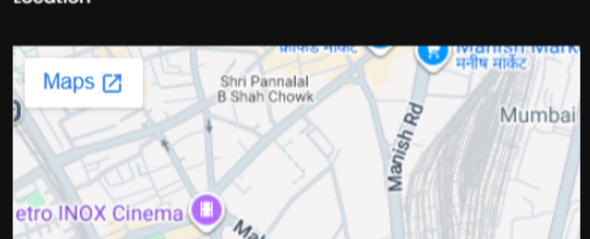

Last year IPD/OPD count:

Approximately 11,000 patients.

Radiotherapy

History of department
The department of Radiation Oncology was established at the Cama & Albless Hospital, Mumbai in June 2001. It is the only state government hospital of Government of Maharashtra having Cancer dedicated treatment for women and children. Initially the department was equipped with teletherapy cobalt machine (Theratron-780E) and HDR Brachytherapy (Micro-selectron) and treatment planning X-ray Simulator. From May 2013 the department was upgraded with highly advanced Linear Accelerator Radiotherapy machine (Trilogy) and radiation treatment planning machine CT simulator (3D images).

In the department, both cancer directed treatment like radiotherapy and chemotherapy are available under PMJAY. Currently department has equipped with new indigenous radiotherapy machine named Siddharth-II Iconic Plus from Panacea Medical Technology and CT simulator (GE healthcare). Till date 163000+ radiation fractions have been delivered using above radiotherapy facilities.

Ex Heads of the department: Dr. Sonali Pingale-2001-2003, Dr. Pushkar Ingale-2004-2006, Dr. Dilip Nikam 2007-2018

Vision / Mission statement:- to provide expert care by utilizing state of the art technology with maintaining the respect and dignity of every patient for shaping the future of oncology.

New services started:-

- Palliative care services by department with dedicated palliative care patient beds in cancer ward.
- On Radiotherapy machine Siddharth- II Iconic Plus started treatment from June 25th 2025.
- A symposium organization by department on the occasion of world cancer day. 4th and 5th Feb 2026.

OPD number, location, days and timings:
Radiotherapy Building, First floor, Monday to Saturday 9:00 am to 1:00 pm.

Special OPD days and timings: radiotherapy planning days:- every Tuesday and Thursday , time 11 to 2pm
Last year data: Jan 2025 to Dec 2025
IPD count: admitted 1985 Chemotherapy 1843
OPD count:-8209
Total patient treated: 816

Services offered by department: Radiotherapy, Chemotherapy, Palliative care

Specialised services offered by department: under radiotherapy 3DCRT, IMRT, ARC

Publications in last 3 years:
Intensity-Modulated Radiotherapy versus Volumetric Modulated Arc Therapy in Post-operative Carcinoma Tongue: A Systematic Review of Dosimetric Parameters, Treatment Efficiency, and Clinical Outcomes. Dr. Amitabh and others, IJDDT, Volume 16 Issue 7s, 2026
Incidence of breast cancer in young females- our experience. Dr. Trial Suralkar, Dr. Zeba Shaikh, Dr. Amitabh Pandagale. International Journal of Scientific Research. (Print ISSN: 2277-8179) for 1st February 2026 issue.

Otorhinolaryngology

History of the Department

Gokuldas Tejpal Hospital is one of the oldest government hospitals in Mumbai, established in 1874. Initially, the hospital was founded to provide free medical care to the native population of Mumbai and soon became an important center for public healthcare services.

The Department of Otorhinolaryngology (ENT) developed as part of the extension of specialty services associated with the Sir J.J. Group of Hospitals, focusing on the diagnosis and management of diseases affecting the ear, nose, throat, and head and neck region.

A significant milestone was achieved in October 2024 with the establishment of a new medical college, transforming the institution into an independent medical college and hospital. Since then, the ENT Department has progressively expanded its scope and capabilities to manage a broader spectrum of clinical conditions and surgical procedures.

Over the years, the department has enhanced its services to include:

- Ear surgeries such as Tympanoplasty and Mastoidectomy.
- Nasal and Sinus Surgeries.
- Tonsillectomy and Adenoidectomy.
- Head and Neck Surgical Management.
- Diagnostic Endoscopy and Laryngoscopy.
- Management of Vertigo and Allergic Rhinitis.

In addition to providing comprehensive patient care, the department actively contributes to undergraduate medical education and academic development through lectures, seminars, case presentations, clinical demonstrations, and research activities.

Ex-Heads of the Department

- Dr. Smita Nagle – Head of Department
- Dr. Meenesh Juvekar – Honorary Head of Department

Courses Offered / Proposed by the Department

- MS (ENT)

Vision / Mission Statement

The Department of Otorhinolaryngology (ENT) is committed to developing into a well-equipped tertiary care teaching and referral center providing advanced diagnosis, treatment, and surgical management in Otology, Neuro-otology, Endoscopic Sinus Surgery, Dacryocystorhinostomy (DCR), Head and Neck Surgery, and Cochlear Implant services.

With the advent of endoscopic techniques, the department has successfully incorporated Functional Endoscopic Sinus Surgery (FESS), Dacryocystorhinostomy (DCR), and Microlaryngeal Surgeries into its routine clinical practice. The department also regularly performs Thyroid Surgeries and various Head and Neck Surgical procedures.

In addition to delivering high-quality patient care, the department is dedicated to strengthening undergraduate and postgraduate medical education through academic excellence, clinical training, and research activities.

With the establishment of the new medical college, the department is continuously upgrading its infrastructure, technology, and teaching facilities to provide better educational opportunities and enhanced patient care services. The long-term vision of the department is to evolve into a full-fledged super-specialty center capable of delivering comprehensive ENT care within the institution while minimizing the need for referrals to other centers.

OPD Details

Location: Room No. 21, 1st Floor of OPD Building, Inside GT hospital, Fort, Mumbai 400001
Days: Monday, Tuesday, Thursday, Saturday
Timing: 9:00 am to 1:00 pm

Last Year Data

IPD Count: 94
OPD Count: 4186 (2025)
OT Count: Major cases – 72
Minor cases – 270
Emergency cases – 520

Recent Updates (Last 2 Years)

During the COVID-19 pandemic, the number of surgeries performed by the Department of Otorhinolaryngology (ENT) declined significantly due to restrictions and the prioritization of emergency healthcare services.

Over the past two years, however, the department has witnessed a steady increase in patient inflow and surgical activity. All routine and specialized ENT procedures have been successfully resumed, reflecting the department's commitment to providing comprehensive patient care.

In the year 2025, the department performed a total of 342 surgical procedures, comprising 72 major surgeries and 270 minor surgeries. In addition, 113 nasal endoscopic procedures were carried out. The department also manages approximately 8–10 emergency surgical procedures per day, demonstrating its capacity to handle a substantial emergency workload.

The department routinely performs a wide spectrum of common as well as advanced ENT surgeries, ensuring comprehensive diagnostic and therapeutic services for patients. Continuous efforts are being made to upgrade surgical infrastructure and equipment to provide state-of-the-art patient care and improve clinical outcomes.

Alongside patient care services, the department places significant emphasis on surgical training, academic excellence, skill development, and professional growth of medical students and healthcare personnel through various educational and training activities.

Orthopedic

The orthopaedics department headed by Dr. Amit Supe offers a comprehensive orthopaedic management and variety of orthopaedic surgeries. The department has an advanced operation theatre consisting of state of art operating table, C-Arm with specialised equipment for all joint replacement, arthroscopy and spine surgery catering to all strata of population. The orthopaedic wards have expert personnel for personalised care and provide comfortable pre-operative and post-operative stay. A well-equipped physiotherapy department with expert personnel helps early rehabilitation and return to daily activity levels.

Vision / Mission statement: To provide safe treatment, smooth recovery and better quality of life for all strata of population.
Provide academic teaching and hands-on training to all orthopaedic residents and students.

Ophthalmology

The Department of Ophthalmology at Gokuldas Tejpal (GT) Hospital, Mumbai, has its origins within the historic academic framework of Grant Medical College and the Sir J. J. Group of Hospitals, one of India's oldest and most prestigious medical institutions. Functioning for decades under this umbrella, the department contributed to undergraduate and postgraduate teaching, while providing high-volume, affordable ophthalmic care to the urban population. It developed alongside the rich legacy of ophthalmology in Mumbai, which dates back to dedicated eye institutions established in the 19th century. In 2024, a significant transition occurred with the establishment of Government Medical College (GMC) Mumbai as an independent institution based at GT Hospital, along with Cama Hospital, marking the department's evolution from the JJ Group system to an independent academic entity while continuing its commitment to quality training and comprehensive eye care.

Ex Heads of the department:
Dr. Neelam Gawale
Dr. Sujata Chahande

Vision / Mission statement:
To deliver comprehensive, affordable, and high-quality ophthalmic care while training skilled ophthalmologists and advancing education, research, and community eye health.

Dentistry

History of the Department

The Department of Dentistry was established in June 2017 at Gokuldas Tejpal Hospital, Mumbai. The Out-Patient Department (OPD) is located on the ground floor of the main OPD building, adjacent to the Casualty Department.

For several years, the department functioned with Clinical Assistants who managed OPD services and performed dental procedures. A significant milestone was achieved in September 2024 when Dr. Resham Pakhmode joined as Assistant Professor and assumed charge as Head of the Department. The department currently comprises an Assistant Professor, Senior Resident, and Clinical Assistant.

The Dental OPD at Cama Hospital was subsequently entrusted to the G.T. Hospital Dental Team under the leadership of Dr. Resham Pakhmode and the guidance of Dr. Jitendra Deshmukh, Dean of Government Medical College and G.T. & Cama Hospitals.

Under the guidance of the then Dean, Dr. Jitendra Sankpal (currently Superintendent, G.T. Hospital), the department was upgraded with advanced dental equipment and a new dental chair. Soft Tissue Diode Laser procedures were introduced in April 2025, enabling minimally invasive periodontal treatments that provided faster patient recovery and reduced the need for local anesthesia.

The department further enhanced its diagnostic capabilities with the introduction of high-quality RVG (Radiovisiography) services following the installation of a new dental radiography machine in March 2025.

In addition to clinical services, the department actively promotes academic excellence and extracurricular activities, conducting various educational and professional development programs throughout the year.

Vision / Mission Statement

1. The Department of Dentistry is committed to providing high-quality dental care with a focus on patient well-being, ensuring excellence in treatment rather than volume of services.
2. The department follows a conservative treatment philosophy, emphasizing the preservation and restoration of natural oral hard and soft tissues, recognizing their inherent regenerative and reparative potential.
3. In addition to delivering comprehensive dental treatment services, the department actively conducts preventive oral health and general health check-up camps, public awareness programs, academic activities, and scientific events that benefit patients, students, and healthcare professionals alike.

OPD Number, Location, Days and Timings

Location: Department of Dentistry, Ground Floor, Main OPD Building, Gokuldas Tejpal Hospital, Mumbai.
Days: Monday to Saturday
Timings: As per hospital OPD schedule.

Recent Updates (Last 1 Year: April 1, 2025 – March 31, 2026)

The Department of Dentistry conducted various health check-up camps, awareness programs, academic activities, and scientific events during the year:

1. International Women's Day Celebration (March 2025): Conducted in collaboration with a counselor on the theme *"Women in Medicine."*
2. World Oral Health Day (March 2025):
   - Oral health awareness camp for students of BMC Lord Harris School.
   - Oral health check-up camp for First Year MBBS students.
3. World Health Day Symposium (April 2025): Organized for MBBS students.
4. World No Tobacco Day (May 2025): Awareness interview broadcast on Akashwani.
5. Oral Hygiene Day (September 2025): Oral and personal hygiene awareness program for female nursing staff.
6. De-addiction Drive (October 2025): Awareness activities conducted for First Year MBBS students and Class IV staff.
7. Thanksgiving Program (December 2025): Interactive program organized at a BMC school with participation of Second Year MBBS students.
8. New Year Oral Healthcare Initiative (January 2026): Oral hygiene awareness talks conducted for working women.
9. National Periodontist Day (February 2026): Oral health check-up and treatment camp organized for interns.
10. World Cancer Day (March 2026): Symposium conducted on 4th and 5th March 2026.
11. World Oral Health Day Celebration Month (March 2026): Oral health check-up week and treatment camp organized for interns.
12. Dentist Day (March 2026): Integrated mentor-mentee session along with an oral health awareness activity at Lord Harris BMC School.

Additional Achievements and Developments

1. A clinical meeting was conducted by the Department of Dentistry in collaboration with the Department of Chest Medicine, Government Medical College, Mumbai, in January 2026.
2. Significant infrastructure development and equipment installation were undertaken during the year:
   - March 2025: Procurement and installation of a Dental Chair, Scaler Machine, Soft Tissue Diode Laser, RVG X-Ray Machine, and HP Computer.
   - November 2025 – February 2026: Procurement of consumable dental materials.
3. Dr. Resham Pakhmode, Assistant Professor, received the "Outstanding Contribution to Sports Dentistry Education" Award from the Indian Academy of Sports Dentistry, 2026.

DVL

The Department of DVL at Gokuldas Tejpal (GT) Hospital, Mumbai, has its origins within the historic academic framework of Grant Medical College and the Sir J. J. Group of Hospitals, one of India's oldest and most prestigious medical institutions. Functioning for decades under this umbrella, the department contributed to undergraduate and postgraduate teaching, while providing high-volume, affordable care to the urban population. The department boasts one of the most developed photodermatology services in entire India, since installation of multiple devices in 2011. In 2024, a significant transition occurred with the establishment of Government Medical College (GMC) Mumbai as an independent institution based at GT Hospital, along with Cama Hospital, marking the department's evolution from the JJ Group system to an independent academic entity while continuing its commitment to quality training and comprehensive dermatology services.

Ex Heads of the department:
Dr Usha Khemani
Dr Rajesh Kumar

Courses offered by department with per year intake: MBBS

Vision / Mission statement:
Bringing back science and ethics to Dermatology

Recent Updates (Last 1 year, April 1, 2025 to March 31, 2026)
(Eg awards to students / faculty, CME arranged, Camps arranged, guest lectures, new services started etc)

- Vitiligo Awareness Camp
- Leprosy Awareness Camp Skit

OPD number, location, days and timings: OPD 12 & 13, First floor, OPD building, GT hospital campus Mon to Sat 9am to 1pm

Last year data:
IPD count 125
OPD count 40512

Community Medicine

The Department of Community Medicine was established in the year 2024 as a part of Government Medical College, Mumbai. Since its establishment, the department has been actively involved in undergraduate medical education, preventive and promotive health services, community outreach activities, and public health programs. Regular teaching activities for First MBBS and Second MBBS students were initiated from the beginning, and the department is currently expanding its academic and field practice activities with the upcoming Third MBBS batch.

The department has successfully implemented the Family Adoption Program (FAP) for undergraduate students as per National Medical Commission (NMC) guidelines. FAP activities for the 2024–25 batch were conducted in the GT & CAMA campus area, while FAP activities for the 2025–26 batch were conducted in the St. George campus area.

The department is also actively involved in the development of Rural and Urban field practice areas, including the proposed Rural Health Training Centre (RHTC) at SDH Panvel and Urban Health Training Centre (UHTC) at Colaba Dispensary. The department continues to contribute towards institutional development through academic coordination, internship orientation, HMIS review activities, DMER- college ranking assistance, immunization activities, awareness programs, and community-based healthcare services.

Recently, an NCD Corner has been initiated at GT Hospital under the guidance of the Dean and the Community Medicine Department to strengthen screening and awareness regarding non-communicable diseases. The department is also involved in bridge-course teaching activities (CCMP), public health outreach camps, Hajj vaccination activities, and interdisciplinary academic programs.

Courses offered by department with per year intake:

Course	Intake
MBBS Undergraduate Teaching	50 students per batch
CCMP (Certificate Course in Modern Pharmacology) – Community Medicine Lectures for BAMS/BHMS practitioners	As per institutional allotment

Vision statement

To develop the Department of Community Medicine as a center of excellence in preventive, promotive, and public health services through quality medical education, community-oriented healthcare, research activities, and field-based training programs.

Mission Statement

- To provide competency-based undergraduate medical education in Community Medicine.
- To strengthen preventive and promotive healthcare services.
- To establish functional Rural and Urban Health Training Centres.
- To promote community-based learning through field visits and Family Adoption Program activities.
- To conduct research and public health activities addressing community health needs.
- To support national health programs and institutional healthcare services.
- To promote interdisciplinary public health training and epidemiological learning.

Recent Updates (Last 1 year, April 1, 2025 to March 31, 2026)

(Eg awards to students / faculty, CME arranged, Camps arranged, guest lectures, new services started etc)

- Conducted regular teaching activities and Clinical postings for First MBBS and Second MBBS students.
- Conducted Family Adoption Program (FAP) activities for undergraduate students.
- FAP for 2024–25 batch conducted in GT & CAMA campus area.
- FAP for 2025–26 batch conducted in St. George campus area.
- Conducted Foundation Program for 2025–26 MBBS batch for 15 days.
- Organized awareness activities and coordination with other departments of Institution during Shri Ganesh campaign & Swasth Nari, Sashakt Parivar Abhiyaan.
- Assisted in implementation and awareness activities related to HPV vaccination.
- Continued regular Paediatric Immunization activities with existing infrastructure.
- Conducted regular clinical postings and prepared academic timetables for MBBS students.
- Provided assistance for HMIS review activities, DMER-related college ranking activities.
- Initiated NCD Corner at GT Hospital under Community Medicine Department with beneficiary's attendance showed progressive increase.
- Conducted internship orientation activities under supervision of Community Medicine Department.
- Ongoing follow-up for establishment of RHTC at SDH Panvel and UHTC at Kulaba Dispensary.
- Conducted regular lectures for CCMP (Certificate Course in Modern Pharmacology) students under Community Medicine subject postings.
- Conducted World Health Day community activities in OPD and Quiz Competition for Second MBBS students.
- Conducted Hajj Vaccination activities for Haj pilgrims.
- Organized school health awareness activities and camps.
- Presented a clinical case in the Monthly College Clinical Meet.
- Facilitated observership training for students from B.Sc. background in Epidemiology and Public Health learning.
- Regular academic and public health activities conducted with Junior Residents posted under District Residency Program (DRP/TRP) from GGMC & JJ Hospital Community Medicine Department.

Pharmacology

The Department of Pharmacology at Government Medical College, GT Hospital & Cama Hospital, Mumbai is responsible for teaching pharmacology to undergraduate medical students as part of the Second Professional MBBS curriculum. The department provides training in the scientific basis of drug therapy, including pharmacodynamics, pharmacokinetics, clinical use of medicines, adverse drug reactions, and rational prescribing practices relevant to patient care.

In addition to undergraduate teaching, the department actively participates in clinical pharmacology activities such as adverse drug reaction monitoring, academic research, and continuing medical education programs. The department also coordinates pharmacovigilance activities and contributes to promoting safe and rational use of medicines.

The department conducts the Certificate Course in Modern Pharmacology (CCMP) for practicing medical professionals, aimed at updating their knowledge of rational drug therapy and recent advances in pharmacology.

Ex Heads of the department:

Dr Amit Mutha, (16th Nov 2024 to 3rd Feb 2026)

Courses offered by department with per year intake:

Course	Duration	Intake
MBBS – Pharmacology Teaching (Second Professional MBBS)	As per NMC Curriculum	As per college intake
CCMP (Certificate Course in Modern Pharmacology)	As per university guidelines	As per approval

Vision / Mission statement:

To promote excellence in pharmacology education, research, and clinical pharmacology by fostering rational prescribing, ensuring safe and effective use of medicines through pharmacovigilance, and supporting continuous learning for healthcare professionals to improve patient care and public health.

Recent Updates (Last 1 year):

- CCMP course implementation: Batch of 50 student
- Institutional Ethics Committee Establishment
- Pharmacovigilance: PvPi Registration for ADR reporting

Pathology

Vision

The vision for a modern pathology department in this setting typically focuses on becoming a leading center of excellence in diagnostics and education. Specifically, it aims to:

• Achieve Excellence: Become a nationally recognised leader in pathology by integrating state-of-the-art technology with high-quality patient care.

• Modernise Diagnostics: Transform into a modernized, error-free laboratory with the shortest possible turnaround times for essential and personalized pathology tests.

• Social Responsibility: Produce compassionate and socially responsible physicians through a deep commitment to ethical practice and community service.

Mission

The mission outlines the daily commitment of the department to its key stakeholders—patients, students, and the scientific community:

• Diagnostic Excellence: Provide accurate, reliable, and timely diagnostic services (Histopathology, Cytopathology, Haematology) to help clinicians optimize patient outcomes.

• Educational Leadership: Deliver high-caliber medical education to MBBS and MD students, fostering a foundational understanding of disease mechanisms.

• Research & Innovation: Foster an inquiry-driven environment to explore disease mechanisms and biomarkers, contributing to broader medical knowledge.

• Quality Assurance: Rigorously maintain a Quality Management System (QMS) to ensure laboratory operations meet stringent safety and accuracy standards.

Recent Updates (Last 1 Year: April 1, 2025 – March 31, 2026):
A guest lecture on "Role of Immunofluorescence in Dermatopathology" was delivered by Dr. Akshay Kishor Susvirkar. A unique case from the department was selected and presented at the 47th Annual Conference of the Maharashtra Chapter, 2026, held in February 2026. The department also organized blood donation camps on a regular basis throughout the year.

OPD Number, Location, Days and Timings:
Laboratory Nos. 24 & 25, Second Floor, Grant Medical College & Sir J.J. Group of Hospitals, Mumbai. Services are available 24 hours a day, 7 days a week.

Microbiology

College started in the year 2024. Microbiology teaching for the First batch of 2nd year MBBS students started since October 2025

Courses offered by department with per year intake: MBBS, 50 students

Vision Statement
To be a premier, state-of-the-art center of excellence in diagnostic microbiology, infection control, and academic education, continually raising healthcare standards for the community.

Mission Statement
– Patient Care: To provide accurate, reliable, and cost-effective microbiological diagnostics and surveillance to support clinical treatment and infection control in South Mumbai.
– Education: To equip medical and paramedical students with robust clinical knowledge and practical laboratory skills to combat emerging infectious diseases.
– Research: To foster a culture of research and innovation that addresses real-world clinical and public health challenges in Maharashtra.

OPD number: 22

Location: Second floor, Casualty Building, G.T Hospital

Days and timing: All days, 24 hours

Special OPD days and timings:- 9am to 2 pm

Last year data: 45024 samples

Biochemistry

Established in 2024, our institution welcomes a batch of 50 students and is committed to delivering competency-based medical education. With trained and experienced faculty members, we adopt a problem-based learning approach supported by diverse teaching-learning methods such as didactic lectures, early clinical exposure, and tutorials. A structured mentor-mentee program ensures personalized academic and personal guidance. Learning outcomes are strengthened through monthly continuous class tests and regular seminar activities, promoting critical thinking, communication skills, and overall professional development.

Infrastructure

- No. of rooms – Lecture Hall on the Sixth Floor of Main Building with a Capacity of 50, shared by Department of Anatomy, Biochemistry & Physiology.
- labs – UG Practical Lab with a capacity of 25 on the first floor of Cama hospital OPD Building
- demo rooms – 01
- Number of microscopes – 10

Equipment List (Mandatory)

Equipment / Instrument	Quantity	Working Status	Calibration Certificates
UG Lab			
Analytical Balance: up to 200 g/1gm increment (scale)	02	Working	
Urinometers calibrated	25	Working	
Hot air oven (More than 200 litres)	02	Working	
Digital Colorimeters	05	Working	
Student Microscopes	10	Working	
Glucometer with strips (For POCT)	10	Working	
Thermometer 0 – 250 °C	05	Working	
Semi autoanalyzer	02	Working	
Boiling Water Baths	01	Working	
Constant Temperature Water Bath Tank Capacity: (Temperature range 5 to 80°C)	01	Working	
Centrifuge Clinical for > 8 Tubes	02	Working	
pH Meters of Wide Range Digital	05	Working	
Fixed Volume Pipettes – 1ml, 0.5ml, 0.2ml, 0.1ml, and 0.02ml	01 Set	Working	
Bottle Dispensers	01 Set	Working	
Variable and Fixed Volume Micro Auto Pipettes	01 Set	Working	
Vacutainer Tubes (Different Types)	01 Set	Working	
PCR Machine	01	Working	
ABG Machine	01	Working	
Complete Chromatographic Unit for Paper & TLC	01	Working	
Complete Electrophoresis Apparatus with Power Supply (Paper, PAGE, Agarose)	01	Working	
Densitometer with Computer	01	Working	
Vortex Mixers	02	Working	
Incubator 37 °C	02	Working	
Cama Lab			
XL-1000 Autoanalyser	1	Working	
XL-640 Autoanalyser	1	Working	
Cobas e – 411 Autoanalyser	1	Working	
Electric Digital Balance	1	Working	
ABG Machine b – 221	1	Working	
Easy Bil-1 P Bilirubinometer	1	Working	
G T Lab			
Bio-Chemistry Analyzer - 1	1	Working	
Bio-Chemistry Analyzer - 2	1	Working	
Immunoassay Analyser - 1	1	Working	
Electrolyte Analyser	2	Working	
Blood Gas Analyser	2	Working	
Centrifuge Machine	4	Working	
Water Plant	1	Working	
Automatic Biochemistry Analyser (Daisy)	1	Working	

Academic Activities

- Lecture schedule
- Practical/class schedule-
- Logbook sample

Research Output

newly established institute, projects like ICMR will be done with interested students from second year onwards till completion of internship for MBBS students. PG projects and thesis related research will start with newly admitted post graduate students from next academic year.
