HOSTEL

The separate boys' and girls' hostel facilities at Tripura Santiniketan Medical College are thoughtfully designed to provide a comfortable, secure, and supportive living environment for students. These hostels are essential components of the college's infrastructure, offering a conducive atmosphere for academic focus, personal growth, and social interaction.

Boys' Hostel

The boys' hostel at Tripura Santiniketan Medical College is a well-equipped facility that provides male students with a safe and comfortable living space. The hostel features a variety of room configurations, typically housing two to three students per room. Each room is furnished with essential amenities, including beds, study tables, chairs, and wardrobes, ensuring that students have everything they need for both study and relaxation.
The boys' hostel is designed with a focus on creating a balanced lifestyle for its residents. The facility includes common areas where students can socialize, watch television, or engage in indoor games. These spaces help foster a sense of community among the residents, allowing them to unwind and build friendships outside of their academic responsibilities.

Girls' Hostel

The girls' hostel at Tripura Santiniketan Medical College is similarly well-appointed, offering female students a secure and welcoming environment. The hostel provides rooms that accommodate two to three students, each furnished with the necessary amenities to support both academic and personal activities. The rooms are designed to be spacious and comfortable, with adequate lighting and ventilation to create a pleasant living environment.
In addition to the standard facilities, the girls' hostel places a strong emphasis on safety and privacy. The hostel is equipped with security measures such as 24/7 surveillance, secure entry points, and dedicated staff to ensure that the residents feel safe and supported at all times. The facility also includes common areas for socializing and relaxation, promoting a balanced and healthy lifestyle.

Health and Wellnes

Health and wellness are priorities in both hostels, with access to basic medical care available on campus. In case of health concerns or emergencies, students can quickly seek assistance. Regular health check-ups and wellness programs may also be organized to promote the overall well-being of the residents.

Recreational and Social Facilities

Understanding the importance of recreation and relaxation, both hostels offer facilities for sports and leisure activities. There are common rooms with indoor games, television, and spaces for social interactions. Additionally, outdoor sports facilities are available, encouraging students to engage in physical activities and maintain a healthy lifestyle.
